

DESCRIPTION: The standard 2035.00471 track is a tubular section formed from 3/16" plate steel and is available in 10-foot lengths. A lighter weight, 11 gauge (2035.00804) is also available. The track is finished with R-W standard baked enamel powder coat paint. Unpainted and stainless steel track are also available.

APPLICATION: The No. 2035 track provides the runway for the carriers in the "Safe-Rail" manual push monorail systems. It also provides the runway for the chain in the "Zig-Zag" continuous power chain conveyors. In Power & Free systems, such as "Twin-Trak", incorporating two tracks, the heavier guage track is used to carrier the load and for the continuous "Zig-Zag" power chain.

SHIPPING WEIGHT: 2035.00471 Track: 50 lbs. per 10-foot section
 2035.00804 Track: 35 lbs. per 10-foot section

File Name: 2035-471 & 804.dwg
