

CONVEYOR CHAIN LUBRICATOR

Part No. 2035.02893

DESCRIPTION: The 2035.02893 Lubricator is designed to precisely lubricate the critical bearing points of the conveyor chain. The lubricator has five ejector tubes to precisely dispense the lubricant into the vertical and lateral wheel bearings along with the vertical link pin and roller. The unit has a micro-processor to accurately control the amount of lubricant that is dispensed.

APPLICATION: The 2035.02893 Lubricator is premounted onto a 2'-6" track section and has a 5.5 gallon reservoir with a low level alarm.
 Electrical requirements: 120VAC, 1 Amp.
 No air lines are required. No lubricant included.
 Lubricant must be purchased separately.

SHIPPING WEIGHT: 54 lbs.
